

Table 1. Profile of the State Population by Diagnosis

This table summarizes the estimates of adults residing within the State with serious mental illness (SMI) and children residing within the state with serious emotional disturbances (SED). The table calls for estimates for two time periods, one for the report year and one for three years into the future. CMHS will provide this data to States based on the standardized methodology developed and published in the Federal Register and the State level estimates for both adults with SMI and children with SED.

Table 1.		
Report Year:		
State Identifier:		
	Current Report Year	Three Years Forward
Adults with Serious Mental Illness (SMI)		
Children with Serious Emotional Disturbances (SED)		

Note: This Table will be completed for the States by CMHS.

Table 2A. Profile of Persons Served, All Programs by Age, Gender and Race/Ethnicity

This table provides an aggregate profile of persons in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client receiving services in programs provided or funded by the state mental health agency. The client profile takes into account all institutional and community services for all such programs. Please provide unduplicated counts if possible.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Please report the data under the categories listed - "Total" are calculated automatically.

Comments on Data (for Gender):																			
Comments on Data (Overall):																			

Note: Clients can be duplicated between Rows: e.g., The same client may be served in both state psychiatric hospitals and community mental health centers during the same year and thus would be reported in counts for both rows.

Instructions:

- States that have county psychiatric hospitals that serve as surrogate state hospitals should report persons served in such settings as receiving services in state hospitals.
- If forensic hospitals are part of the state mental health agency system include them.
- Persons who receive non-inpatient care in state psychiatric hospitals should be included in the Community MH Program Row
Persons who receive inpatient psychiatric care through a private provider or medical provider licensed and/or contracted through the SMHA should be counted in the "Other Psychiatric Inpatient" row. Persons who receive Medicaid funded inpatient services through a provider that is not licensed or contracted by the SMHA should not be counted here.
- A person who is served in both community settings and inpatient settings should be included in both rows
RTC: CMHS has a standardized definition of RTC for Children: "An organization, not licensed as a psychiatric hospital, whose primary purpose is the provision of individually planned programs of mental health treatment services in conjunction with residential care for children and youth primarily 17 years old and younger. It has a clinical program that is directed by a psychiatrist, psychologist, social worker, or psychiatric nurse who has a master's degree or doctorate. The primary reason for the admission of the clients is mental illness that can be classified by DSM-IV codes-other than the codes for mental retardation, developmental disorders, and substance-related disorders such as drug abuse and alcoholism (unless these are co-occurring with a mental illness)."

Table 4. Profile of Adult Clients by Employment Status

This table describes the status of adults clients served in the report year by the public mental health system in terms of employment status. The focus is on employment for the working age population, recognizing, however, that there are clients who are disabled, retired or who are homemakers, care-givers, etc and not a part of the workforce. These persons should be reported in the "Not in Labor Force" category. This category has two subcategories: retired and other. (The totals of these two categories should equal the number in the row for "Not in Labor Force"). Unemployed refers to persons who are looking for work but have not found employment. Data should be reported for clients in non-institutional settings at time of discharge or last evaluation.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Table 4a. Optional Profile of Adult Clients by Employment Status: by Primary Diagnosis Reported

The workgroup exploring employment found that the primary diagnosis of consumers results in major differences in employment status. The workgroup has recommended that we explore the ability of states to report employment by primary diagnosis and the impact of diagnosis on employment. The workgroup recommended 5 diagnostic clusters for reporting.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Table 5A. Profile of Clients by Type of Funding Support

This table provides a summary of clients by Medicaid coverage. Since the focus of the reporting is on clients of the public mental health service delivery system, this table focuses on the clientele serviced by public programs that are funded or operated by the State Mental Health Authority. Persons are to be counted in the Medicaid row if they received a service reimbursable through Medicaid.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Please note that the same person may be served in both Medicaid and Non-Medicaid programs during the same reporting period.

Table 5A																
Report Year:	2009

☐ Data Based on Medicaid Services ☒ Data Based on Medicaid Eligibility, not Medicaid Paid Services ☐ 'People Served by Both' includes people with any Medicaid

Comments on Data (for Age):	
Comments on Data (for Gender):	
Comments on Data (Overall):	

Each row should have a unique (unduplicated) count of clients: (1) Medicaid Only, (2) Non-Medicaid Only, (3) Both Medicaid and Other Sources funded their treatment, and (4) Medicaid Status Not Available.

If a state is unable to unduplicate between people whose care is paid for by Medicaid only or Medicaid and other funds, then all data should be reported into the 'People Served by Both Medicaid and Non-Medicaid Sources' and the 'People Served by Both includes people with any Medicaid' check box should be checked.

Table 5A. Profile of Clients by Type of Funding Support (CONTINUED FROM PREVIOUS PAGE)

This table provides a summary of clients by Medicaid coverage. Since the focus of the reporting is on clients of the public mental health service delivery system, this table focuses on the clientele serviced by public programs that are funded or operated by the State Mental Health Authority. Persons are to be counted in the Medicaid row if they received a service reimbursable through Medicaid.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Please note that the same person may be served in both Medicaid and Non-Medicaid programs during the same reporting period.

Comments on Data:			

Adult Social Connectedness and Functioning Measures

1. Did you use the recommended new Social Connectedness Questions? ☒ Yes ☐ No _____ Measure used
2. Did you use the recommended new Functioning Domain Questions? ☒ Yes ☐ No _____ Measure used
3. Did you collect these as part of your MHSIP Adult Consumer Survey? ☐ Yes ☒ No
- If No, what source did you use?

Child/Family Social Connectedness and Functioning Measures

4. Did you use the recommended new Social Connectedness Questions? ☐ Yes ☐ No _____ Measure used
5. Did you use the recommended new Functioning Domain Questions? ☒ Yes ☐ No _____ Measure used
6. Did you collect these as part of your YSS-F Survey? ☐ Yes ☐ No
- If No, what source did you use?

Recommended Scoring Rules

Please use the same rules for reporting Social connectedness and Functioning Domain scores as for calculating other Consumer Survey Domain scores for Table 11: E.g.:

1. Recode ratings of “not applicable” as missing values.

2. Exclude respondents with more than 1/3rd of the items **in that domain missing**.
3. Calculate the mean of the items for each respondent.
4. FOR ADULTS: calculate the percent of scores less than 2.5. (percent agree and strongly agree).
5. FOR YSS-F: calculate the percent of scores greater than 3.5. (percent agree and strongly agree).

Items to Score in the Functioning Domain:

Adult MHSIP Functioning Domain:

- 1 I do things that are more meaningful to me.
- 2 I am better able to take care of my needs.
- 3 I am better able to handle things when they go wrong.
- 4 I am better able to do things that I want to do.
- 5 My Symptoms are not bothering me as much (this question already is part of the MHSIP Adult Survey)

YSS-F Functioning Domain Items:

- 1 My child is better able to do things he or she wants to do.
- 2 My child is better at handling daily life. (existing YSS-F Survey item)
- 3 My child gets along better with family members. (existing YSS-F Survey item)
- 4 My child gets along better with friends and other people. (existing YSS-F Survey item)
- 5 My child is doing better in school and/or work. (existing YSS-F Survey item)
- 6 My child is better able to cope when things go wrong. (existing YSS-F Survey item)

Items to Score in the Social Connectedness Domain:

Adult MHSIP Social Connectedness Domain:

- 1 I am happy with the friendships I have.
- 2 I have people with whom I can do enjoyable things.
- 3 I feel I belong in my community.
- 4 In a crisis, I would have the support I need from family or friends.

YSS-F Social Connectedness Domain Items:

- 1 I know people who will listen and understand me when I need to talk
- 2 I have people that I am comfortable talking with about my child's problems.
- 3 In a crisis, I would have the support I need from family or friends.
- 4 I have people with whom I can do enjoyable things

Table 10. Profile of Agencies Receiving Block Grant Funds Directly from the State MHA

This table is to be used to provide an inventory of providers/agencies who directly receive Block Grant allocations. Only report those programs that receive MHBG funds to provide services. Do not report planning council member reimbursements or other administrative reimbursements related to running the MHBG Program.

Please use only one row for each program

PLEASE DO NOT ADD, MERGE, DELETE OR MOVE COLUMNS AND/OR CELLS!

Table 10

5. Family Members Reporting High Cultural Sensitivity of Staff.	252	267	
Please enter the number of persons responding positively to the questions and the number of total responses within each group. Percent positive will be calculated from these data.			
* Please report Confidence Intervals at the 95% level. See directions below regarding the calculation of confidence intervals.			
Comments on Data:			

Adult Consumer Surveys

1. Was the Official 28 Item MHSIP Adult Outpatient Consumer Survey Used?

☐ Yes ☒ No

1.a. If no, which version:

- 1. Original 40 Item Version ☐ Yes
- 2. 21-Item Version ☐ Yes
- 3. State Variation of MHSIP ☒ Yes
- 4. Other Consumer Survey ☐ Yes

1.b. If other, please attach instrument used.

1.c. Did you use any translations of the MHSIP into another language?

☒ 1. Spanish

2. Other Language:

Adult Survey Approach:

2. Populations covered in survey? (Note all surveys should cover all regions of state)

☐ 1. All Consumers in State ☒ 2. Sample of MH Consumers

2.a. If a sample was used, what sample methodology was used?

☒ 1. Random Sample
☐ 2. Stratified /Random Stratified Sample
☐ 3. Convenience Sample

4. Other Sample:

Adult Consumer Surveys (Continued)

2.b Do you survey only people currently in services, or do you also Survey Persons no longer in service?

☒ 1. Persons Currently Receiving Services

☐ 2. Persons No Longer Receiving Services

3. Please Describe the populations included in your sample: (e.g., all adults, only adults with SMI, etc.)

☐ 1. All Adult consumers in state

☒ 2. Adults with Serious Mental Illness

☐ 3. Adults who were Medicaid Eligible or in Medicaid Managed Care

3.4 Other: describe: (for example, if you survey anyone served in the last 3 months, describe that here):

4. Methodology of collecting data? (Check all that apply)

	Self-Administered	Interview
Phone	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
Mail	<input type="checkbox"/> Yes	
Face-to-face	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> Yes
Web-Based	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes

4.b. Who administered the Survey? (Check all that apply)

☒ 1. MH Consumers

☐ 2. Family Members

☐ 3. Professional Interviewers

☒ 4. MH Clinicians

☒ 5. Non Direct Treatment Staff

6. Other: describe:

5. Are Responses Anonymous, Confidential and/or Linked to other Patient Databases?

☒ 1. Responses are Anonymous

- ☒ 1. Responses are Anonymous
☐ 2. Responses are Confidential
☐ 3. Responses are Matched to Client databases

6. Sample Size and Response Rate

6a. How many Surveys were Attempted (sent out or calls initiated)?

N/A

6.b How many survey Contacts were made? (surveys to valid phone numbers or addresses)

N/A

6.c How many surveys were completed? (survey forms returned or calls completed)

1657

6.d. What was your response rate? (number of Completed surveys divided by number of Contacts)

N/A

6.e. If you receive "blank" surveys back from consumers (surveys with no responses on them), did you count these survey's as "completed" for the calculation of response rates?

☐ Yes ☒ No

7. Who Conducted the Survey

7.a. SMHA Conducted or contracted for the Survey (survey done at state level)

☒ Yes ☐ No

7.b. Local Mental Health Providers/County mental health providers conducted or contracted for the survey

☒ Yes ☐ No

(survey was done at the local or regional level)

7.c. Other: Describe: SMHA is also the MH provider in Nevada. The survey was conducted by the SMHA in conjunction with the provider agencies.

* Report Confidence Intervals at the 95% confidence level

Note: The confidence interval is the plus-or-minus figure usually reported in newspaper or television opinion poll results. For example, if you use a confidence interval of 4 and 47% percent of your sample picks an answer you can be "sure" that if you had asked the question of the entire relevant population between 43% (47-4) and 51% (47+4) would have picked that answer.

The confidence level tells you how sure you can be. It is expressed as a percentage and represents how often the true percentage of the population who would pick an answer lies within the confidence interval. The 95% confidence level means you can be 95% certain; the 99% confidence level means you can be 99% certain. Most researchers use the 95% confidence level.

When you put the confidence level and the confidence interval together, you can say that you are 95% sure that the true percentage of the population is between 43% and 51%. (From www.surveysystem.com)

Child/Family Consumer Surveys

1. Was the MHSIP Children/Family Survey (YSS-F) Used? ☒ Yes

If No, what survey did you use?

If no, please attach instrument used.

1.c. Did you use any translations of the Child MHSIP into another language? ☒ 1. Spanish

2. Other Language:

Child Survey Approach:

2. Populations covered in survey? (Note all surveys should cover all regions of state)

☐ 1. All Consumers in State
☒ 2. Sample of MH Consumers

2.a. If a sample was used, what sample methodology was used?

☐ 1. Random Sample ☐ 2. Stratified/Random Stratified Sample
☒ 3. Convenience Sample

4. Other Sample:

2.b Do you survey only people currently in services, or do you also Survey Persons no longer in service?

- ☒ 1. Persons Currently Receiving Services
☐ 2. Persons No Longer Receiving Services

2a. If yes to 2, please describe how your survey persons no longer receiving services.

3. Please Describe the populations included in your sample: (e.g., all children, only children with SED, etc.)

- ☒ 1. All Child consumers in state
☐ 2. Children with Serious Emotional Disturbances
☐ 3. Children who were Medicaid Eligible or in Medicaid Managed Care

3.4 Other: describe: (for example, if you survey anyone served in the last 3 months, describe that here):

4. Methodology of collecting data? (Check all that apply)

	Self-Administered	Interview
Phone	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
Mail	<input checked="" type="checkbox"/> Yes	
Face-to-face	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
Web-based	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes

4.b. Who administered the Survey? (Check all that apply)

- ☐ 1. MH Consumers
☒ 2. Family Members
☐ 3. Professional Interviewers
☐ 4. MH Clinicians
☒ 5. Non Direct Treatment Staff

6. Other: describe:

5. Are Responses Anonymous, Confidential and/or Linked to other Patient Databases?

- ☒ 1. Responses are Anonymous
☒ 2. Responses are Confidential
☐ 3. Responses are Matched to Client databases

6. Sample Size and Response Rate

6a. How many Surveys were Attempted (sent out or calls initiated)?

293

6.b How many survey Contacts were made? (surveys to valid phone numbers or addresses)

293

6.c How many surveys were completed? (survey forms returned or calls completed)

287

6.d. What was your response rate? (number of Completed surveys divided by number of Contacts)

98%

6.e. If you receive "blank" surveys back from consumers (surveys with no responses on them), did you count

these survey's as "completed" for the calculation of response rates?

☐ Yes ☒ No

7. Who Conducted the Survey

7.a. SMHA Conducted or contracted for the Survey (survey done at state level)

☒ Yes ☐ No

7.b. Local Mental Health Providers/County mental health providers conducted or contracted for the survey
(survey was done at the local or regional level)

☐ Yes ☒ No

7.c. Other: Describe:

Comments on Data:

Please enter the number of persons responding positively to the questions and the number of total responses within each group. Percent positive will be calculated from these data.

Table 12: State Mental Health Agency Profile

The purpose of this profile is to obtain information that provides a context for the data provided in the tables. This profile covers the populations served, services for which the state mental health agency is responsible, data reporting capacities, especially related to duplication of numbers served as well as certain summary administrative information.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Table 12	
Report Year:	2009
State Identifier:	NV

Populations Served

- 1 Which of the following populations receive services operated or funded by the state mental health agency? Please indicate if they are included in the data provided in the tables. (Check all that apply.)**

	Populations Covered		Included in Data	
	State Hospitals	Community Programs	State Hospitals	Community Programs
1. Aged 0 to 3	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
2. Aged 4 to 17	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
3. Adults Aged 18 and over	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
4. Forensics	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes	<input checked="" type="checkbox"/> Yes
Comments on Data:				

- 2 Do all of the adults and children served through the state mental health agency meet the Federal definitions of serious mental illness and serious emotional disturbances?**

- ☐ Serious Mental Illness
☐ Serious Emotional Disturbances

- 2.a. If no, please indicate the percentage of persons served for the reporting period who met the federal definitions of serious mental illness and serious emotional disturbance?

2.a.1 Percent of adults meeting Federal definition of SMI:

64.0%

2.a.2 Percentage of children/adolescents meeting Federal definition of SED

91.3%

- 3 Co-Occurring Mental Health and Substance Abuse:**

3.a.	What percentage of persons served by the SMHA for the reporting period have a dual diagnosis of mental illness and substance abuse?	
3.a.1	Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem:	n/a
3.a.2.	Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem:	6%
3.b.	What percentage of persons served for the reporting period who met the Federal definitions of adults with SMI and children/adolescents with SED have a dual diagnosis of mental illness and substance abuse.	
3.b.1	Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem:	n/a
3.b.2.	Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem:	5%
3b.3	Please describe how you calculate and count the number of persons with co-occurring disorders	

4 State Mental Health Agency Responsibilities

a. Medicaid: Does the State Mental Health Agency have any of the following responsibilities for mental health services provided through Medicaid? (Check All that Apply)

- | | |
|---|-------------------------------------|
| 1. State Medicaid Operating Agency | <input type="checkbox"/> |
| 2. Setting Standards | <input checked="" type="checkbox"/> |
| 3. Quality Improvement/Program Compliance | <input checked="" type="checkbox"/> |
| 4. Resolving Consumer Complaints | <input checked="" type="checkbox"/> |
| 5. Licensing | <input type="checkbox"/> |
| 6. Sanctions | <input type="checkbox"/> |
| 7. Other | |

--

b. Managed Care (Mental Health Managed Care

Are Data for these programs reported on URS Tables?

- | | | | |
|--|--|---|------------------------------|
| 4.b.1 | Does the State have a Medicaid Managed Care initiative? | <input checked="" type="checkbox"/> Yes | <input type="checkbox"/> Yes |
| 4.b.2 | Does the State Mental Health Agency have any responsibilities for mental health services provided through Medicaid Managed Care? | <input type="checkbox"/> Yes | <input type="checkbox"/> Yes |
| <i>If yes, please check the responsibilities the SMHA has:</i> | | | |
| 4.b.3 | Direct contractual responsibility and oversight of the MCOs or BHOs | <input type="checkbox"/> Yes | |
| 4.b.4 | Setting Standards for mental health services | <input type="checkbox"/> Yes | |
| 4.b.5 | Coordination with state health and Medicaid agencies | <input type="checkbox"/> Yes | |
| 4.b.6 | Resolving mental health consumer complaints | <input type="checkbox"/> Yes | |

- 4.b.7 Input in contract development ☐ Yes
- 4.b.8 Performance monitoring ☐ Yes
- 4.b.9 Other ☐ Yes

5 Data Reporting: Please describe the extent to which your information systems allows the generation of unduplicated client counts between different parts of your mental health system. Please respond in particular for Table 2, which requires unduplicated counts of clients served across your entire mental health system.

Are the data reporting in the tables?

- Unduplicated**: counted once even if they were served in both State hospitals and community programs and if they were served in community mental health agencies responsible for different geographic or programmatic areas. ☒
- 5.b. **Duplicated**: across state hospital and community programs ☐
- 5.c. **Duplicated**: within community programs ☐
- 5.d. **Duplicated**: Between Child and Adult Agencies ☐

Plans for Unduplication: If you are not currently able to provide unduplicated client counts

- 5.e. across all parts of your mental health system, please describe your plans to get unduplicated client counts by the end of your Data Infrastructure Grant.

6 Summary Administrative Data

- 6.a. Report Year SFY 2009
- 6.b. State Identifier NV
- Summary Information on Data Submitted by SMHA:*
- 6.c. Year being reported: From: 7/1/2008 to 6/30/2009
- 6.d. Person Responsible for Submission Cody Phinney
- 6.e. Contact Phone Number: 775-684-5984
- 6.f. Contact Address 4126 Technology Way
Carson City, NV 89706
- 6.g. E-mail: cphinney@mhds.nv.gov

Table 14A. Profile of Persons with SMI/SED served by Age, Gender and Race/Ethnicity

This is a developmental table similar to Table 2A. and 2B. This table requests counts for persons with SMI or SED using the definitions provided by the CMHS. Table 2A. and 2B. included all clients served by publicly operated or funded programs. This table counts only clients who meet the CMHS definition of SMI or SED. For many states, this table may be the same as Tables 2A. and 2B. For 2007, states should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using your state's definitions of SMI and SED and provide information below describing your state's definition.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Please report the data under the categories listed - "Total" are calculated automatically.

Number of Clients in Each Living Situation as Collected by the Most Recent Assessment in the Reporting Period

All Mental Health Programs by Age, Gender, and Race/Ethnicity

Please provide unduplicated counts, if possible. This table provides an aggregate profile of persons served in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client's last known Living Situation.

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Please report the data under the Living Situation categories listed - "Total" are calculated automatically.

Table 19A. Profile of Criminal Justice or Juvenile Justice Involvement:

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

1. This is a developmental measure. To assist in the development process, we are asking states to report information on the arrest histories of mental health consumers with their December 2007 MHBG submission.
2. The SAMHSA National Outcome Measure for Criminal Justice measures the change in Arrests over time. The DIG Outcomes Workgroup pilot tested 3 consumer self-report items that can be used to provide this information. If your state has used the 3 Consumer self-report items on criminal justice, you may report them here.
3. If your SMHA has data on Arrest records from alternatives sources, you may also report that here. If you only have data for arrests for consumers in this year, please report that in the T2 columns. If you can calculate the change in Arrests from T1 to T2, please use all those columns.
4. Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.
5. Please tell us anything else that would help us to understand your indicator (e.g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).

See Page 2 for additional Questions about the source of this data.

Please Describe the Sources of your Criminal Justice Data

Source of **adult** criminal justice information:

☒ 1) Consumer survey (recommended questions)

☐ 2) Other Consumer Survey: Please send copy of questions

☐ 3) Mental health MIS

☐ 4) State criminal justice agency

☐ 5) Local criminal justice agency

☐ 6) Other (specify) _____

Sources of **children/youth** criminal justice information:

☒ 1) Consumer survey (recommended questions)

☐ 2) Other Consumer Survey: Please send copy of questions

☐ 3) Mental health MIS

☐ 4) State criminal/juvenile justice agency

☐ 5) Local criminal/juvenile justice agency

☐ 6) Other (specify) _____

Measure of **adult** criminal justice involvement:

☐ 1) Arrests

☒ 2) Other: (specify) _____

Statewide survey data _____

Measure of **children/youth** criminal justice involvement:

☐ 1) Arrests

☒ 2) Other: (specify) _____

Statewide survey data _____

Mental health programs included:

☒ 1) Adults with SMI only

☐ 2) Other adults (specify) _____

☐ 3) Both (all adults)

☒ 1) Children with SED only

☐ 2) Other Children (specify) _____

☐ 3) Both (all Children)

Region for which **adult** data are reported:

☒ 1) The whole state

☐ 2) Less than the whole state (please describe) _____

Region for which **children/youth** data are reported:

☐ 1) The whole state

☒ 2) Less than the whole state (please describe) _____

What is the Total Number of Persons Surveyed or for whom Criminal Justice Data Are Reported

Child/Adolescents

Adults

1. If data is from a survey, What is the total Number of people from which the sample was drawn?

2. What was your sample size? (How many individuals were selected for the sample)?

3. How many survey Contacts were made? (surveys to valid phone numbers or addresses)

4. How many surveys were completed? (survey forms returned or calls completed) If data source was not a Survey, How many persons were CJ data available for?

5. What was your response rate? (number of Completed surveys divided by number of Contacts):

State Comments/Notes:

The adult sample was drawn from across the state, on a convenience basis. A total of 1657 responses were collected.

Instructions:
If you have responses to a survey by person not in the expected age group, you should include those responses with other responses from the survey. e.g. if a 16 or 17 year old responds to the Adult MHSIP survey, please include their responses in the Adult categories (since that was the survey they used).

1. Does this table include readmission from state psychiatric hospitals?	<input type="radio"/> Yes	<input type="radio"/> No
2. Are Forensic Patients Included?	<input type="radio"/> Yes	<input type="radio"/> No

Comments on Data:	Nevada's methodology for calculating 30-day and 180-day readmission rates differs from the CMHS methodology, therefore this table is not completed. Data on these rates is included as part of the NOMS in the Implementation Report.
